

**MARKET
GARDENER**
INSTITUTE

A photograph of three people standing in a garden. On the left, a woman wears a wide-brimmed straw hat, a light blue t-shirt, and dark overalls. In the center, a man wears a black baseball cap, sunglasses, and a white t-shirt with a green collar and a graphic that says 'GROWERS & CO.' with a tomato illustration. On the right, a woman wears a white baseball cap and a light-colored t-shirt. They are all smiling and looking upwards. The background shows green foliage and a clear blue sky.

masterclass

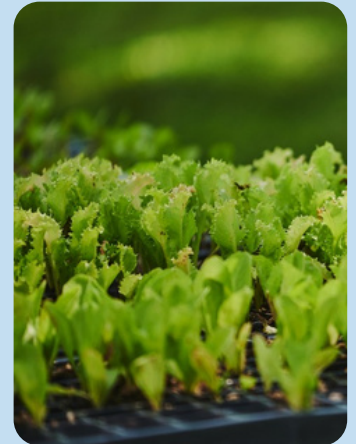

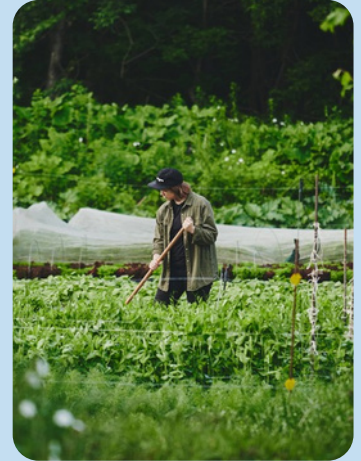

2025 SYLLABUS

About the Program

Since 2017, the Market Gardener Masterclass has become the global standard for professional small-scale organic farming education, with over **10,000 farmers trained in 90+ countries.**

This comprehensive online program is designed for aspiring and professional growers who want to operate profitable, ecological farms without scaling beyond a human-focused model.

The new edition of the Masterclass Certificate delivers **expanded content, more expert voices, and a redesigned student experience**, making it the most complete and impactful version yet.

Our Promise to Students

By enrolling, you are not just joining an online course, you are joining a global movement to make biointensive farming viable, rewarding, and accessible.

You will leave with:

Practical systems to design, operate, and grow your farm

Clear financial and production plans tailored to your context

Confidence in your technical skills

A network of peers and experts to support your journey for years to come

New features

- **1-YEAR ACCESS**
to the full course & community (renewable for USD \$149/year)
- **BROADER TOPICS**
marketing, management, farm design, growing in the tropics, herbs, and more updated throughout the year
- **NEW EXPERTS FACULTY**
with 90+ years of combined experience
- **REDESIGNED STUDENT DASHBOARD**
with guided learning paths and progression tracking
- **MULTI-LANGUAGE CONTENT**
(Spanish available Fall 2025, German in 2026)
- **PROGRESSION FOLLOW-UPS**
to ensure content assimilation
- **COMPLETION CERTIFICATION**
& inclusion in our Worldwide Directory of Certified Growers
- **MOBILE & AI EXPERIENCE**
with our new Masterclass in your pocket where you can ask anything to our AI bot to find your answers quickly!
(Coming in 2026)
- **EXCLUSIVE COMMUNITY SPACES**
with monthly events, and peer-to-peer exchange

Your Faculty

Jean-Martin Fortier

Lead Instructor

Globally recognized authority on small-scale organic vegetable production, JM has inspired hundreds of thousands of growers through his farm, best-selling book *The Market Gardener*, TV series, and educational work. His vision combines ecological integrity with proven profitability.

Luke Sheldrick

Crop Planning

Founder of Terramor Farm, Luke has grown a small CSA into a thriving farm serving top restaurants, markets, and retail outlets. Known for cost-effective farm management and sales strategy, Luke brings a decade of hands-on expertise to your crop planning module.

Lizianne Fortier

Marketing

Business strategist and owner of La Pivoinerie Lili, Lizianne has guided over 100 farms and flower farms in building powerful marketing strategies that increase sales and elevate brand identity.

Your Faculty

Chloé Roy

Flower Farming

Founder of Floramama Farm, Chloé is renowned for her romantic, lush floral design and mastery of cut flower production. She shares both the technical and creative sides of profitable flower growing.

Benjamin Fahrer

Farm Design

Permaculture designer and farmer known for ecological, high-efficiency farm designs, including pioneering rooftop farms in California.

Thierry Lison

Growing in the Tropics

Marine biologist turned tropical farmer, Thierry leads a 50-acre permaculture project in Raiatea, French Polynesia, developing innovative solutions for wet tropical climates.

Angie Warner

Fine Herbs Lover

Market Garden Manager at The Old Mill, Angie specializes in team coordination, workflow optimization, and real-world application of Masterclass systems.

About heirloom Software

Heirloom is an integrated crop planning and farm management platform built **by growers, for growers.** It helps you:

- ✦ Plan production for profitability
- ✦ Optimize workflow and labor
- ✦ Track crops from seed to sale
- ✦ Save time, reduce errors, and make better business decisions

What if I'm already a Masterclass legacy member?

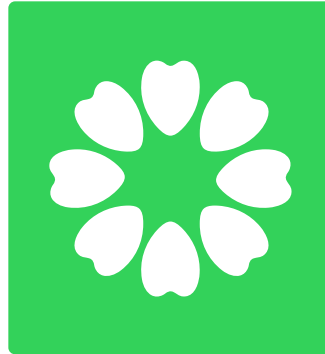

If you've purchased our signature class the Market Gardener Masterclass anytime before July 2025, don't worry we've got you covered. Your legacy plan is safe with us and you will keep your lifetime access directly in your portal.

If you want to change your plan and access the new version of the Masterclass Certificate, you can do so while using the unique link in your legacy plan allowing you to add the new course to your dashboard for 149 \$ USD/year.

If you wish to obtain certification, you can take our legacy user certification exam. Upon successful completion, you'll receive your certification and be added to our worldwide directory.

Guarantee

14-day 100% money-back guarantee if the course does not meet your expectations.

The Masterclass Certificate comes with a 100% Money Back Guarantee for 14 days after the date of enrollment.

We understand that our program is a serious investment for a small-scale farmer, and we expect you to do your due diligence before purchasing our program to be certain that it is the right step for you. We cannot guarantee that taking our course is the right decision for you personally or financially. If you sincerely engage with the course and don't get the value or feel your learning style doesn't match how we teach, we'll happily refund the money you've paid us, given that you tell us exactly why it didn't work for you within the 14 day period.
